

Joe Fulkert To Sell Horses By Public Auction August 11

Arrangements have been completed for the complete disposal of the W. J. Fulkert saddle horses at his farm two miles east of Didsbury on Saturday, August 11, starting at 2:00 p.m., and the sales managers, Hays Limited, expect that buyers will be present from many parts of Canada and the United States.

Joe Fulkert is selling out all his horses, as well as saddles, bridles, etc., and included in the group are 54 horses from colts to stallions.

Mr. Fulkert started breeding his famous "Kentucky" saddle horses in 1928 when he imported the famous stallion "The Dero" and since that time has imported six stallions and twelve mares, from which his present herd has been built. With advancing years Mr. Fulkert finds that he cannot handle the horses properly and has decided to dispose of the entire lot by auction. Anyone looking for a good saddle horse, or first-class breeding stock would be well advised to attend the sale.

Besides the eight stallions in the bunch, there are brood mares with colts at foot and rebred yearlings, two year olds, three year olds and over.

To promote the sale and provide interested persons with all the information possible about the horses Mr. Fulkert has issued a 20-page catalogue with full description of each animal. These catalogues are available to interested buyers and can be had from Mr. Fulkert or by writing to the Sales Managers, Hays Limited, Calgary.

Summer Drought Loss In B.C. Is Seven Million

Drought—the 51st rainless day in Vancouver up to August 3—has cost British Columbia \$7,000,000, it has been estimated.

A survey of the record-breaking drought showed millions lost in unemployment, razed timber tracts, ruined crops, and general losses in industry.

On August 3, 25,000 were out of work in B.C. as against 18,000 reported by the National Employment Service a week previous. Thousands are highly paid in the lumber industry.

Fraser Valley farmers, agricultural authorities estimated, have lost \$1,000,000 in ruined crops. Berry crops were reduced 50 per cent, peas showed a 50 per cent reduction, oats have been stunted and there will be only one hay crop in contrast to two in other years.

Forest fires have taken heavy toll and lumber operators have lost \$2,000,000 while woodworkers have dropped \$4,000,000 in wages.

Mission Sunday To Be Observed August 12

Rodeemer Lutheran Church will celebrate its annual Mission Sunday Festival on Sunday, August 12. The guest speaker for the occasion will be Rev. C. Hennig of Craigmile and special service will be conducted at 10:30 a.m. and at 2:30 p.m. During the noon hour a joint luncheon will be served in the church basement.

The object of these Mission Festivals is to impress upon Christians the Lord's command: "Preach the Gospel to every creature." It has been estimated that there are about 2,150,000,000 persons in the world, but that of this number only some 600,000,000 are Christians and some of these are not very good Christians. Thus there is an evident need of bringing the Gospel into all the world. The spiritual need and distress of the pagan world cries out to all Christians who have God's Word in its truth and purity. Rodeemer Lutheran Congregation cordially invites you to come and celebrate this Mission Festival with them.

17 Members Attend Rugby W.I. Meeting

With an attendance of 17, the August meeting of the Rugby W.I. was held at the home of Mrs. Scott. Mrs. L. Krebs gave a report on the constituency conference held recently in Didsbury, and Miss Vera Blain, of the Rugby Bluebellies, who attended the meeting, was the guest of honor during Farm Women's Week reported a good time there.

Mrs. H. Hoesgood, who attended Farm Women's Week as a W.I. delegate, gave an account of the week's "doings." She said she had spent a most enjoyable time, and returned home with thanks for being sent as a delegate.

The September meeting will be held at the home of Mrs. Ray. The subject for the afternoon will be "Handicaps," and roll call will be a "handicap idea."

RAVEN PICNIC PRIZE WINNERS

The following were the prize winners at the Central Alberta Fish and Game Picnic held at the Raven Inn, Didsbury, on July 29:

Billie Short; J. Murray, Bill Perott and Mr. Jorgensen, Innistail.

Ball Casting: M. Anson, Caroline; A. Reiber and G. Murphy, Innistail.

Fly Casting: M. R. Dutton, Caroline; S. Hill and M. C. Anderson.

Distance Casting: 18 lb. ham donated by Union Packing, won by R. Scott, Olds.

Haug Family Reunion At Bergen Sunday

A family gathering was held Sunday at the home of Mr. and Mrs. Wesley Haug. Seven of Mr. John Haug's eight children were present with their families. Those coming from a distance were Mr. and Mrs. Harold Bjorgan and five sons who motored up from Prince Albert, Saskatchewan, and Mr. and Mrs. Olaf Haug of Poplar Valley, Alberta. Mr. and Mrs. Bjorgan will visit friends and relatives in the district for a week before returning to Prince Albert.

The weather is still fresh with the thermometer registering over 100 on Friday and dropping below freezing two days later, on Sunday night.

Rev. and Mrs. Peter Dyck and family left last weekend for their appointment at Acadia Valley.

The July meeting of the Bergen Ladies' Aid was held at the home of Mrs. S. Clarke with a fair attendance of members and several visitors present. The August meeting will be at the home of Mrs. Ivor Erickson.

August Meeting Of The Westcott Institute

The August meeting of the Westcott W.I. was held at the home of Mrs. Hazel Sommerville with 26 members and five visitors present. The meeting opened with O Canada, followed by repeating the Creed.

Roll call was answered by adding to the autobiographies and a snap for each.

Mrs. R. Benson gave a splendid report on the Farm Women's Week held at Olds.

Members receiving gifts from the secret sisters, Mrs. M. Vogel, Mrs. W. Owens and Mrs. B. Dubois, and those with birthdays added to the birthday box.

A song was sung and Mrs. H. Sommerville then gave a full report on the Constituency Conference, where Westcott W.I. won first for handicraft.

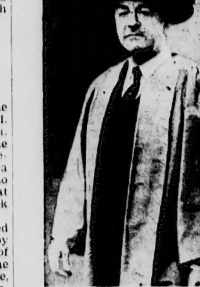

As Mrs. J. Robertson has completed her term as Constituency Convenor a vote of thanks was tendered to her on her good work. A discussion followed on the Conference and Mrs. Carl Eckstrand gave a list of the prizes of the Conference.

The five-minute talk by Mrs. A. Bode dealt with different ways of arranging flowers in vases for the house.

The meeting closed with God Save the King, and lunch was served by the hostesses.

The next meeting will be held at the home of Mrs. Cliff Eckstrand.

The objective for September was discussed and it was decided to get together for the entertainment for the children of the local hospital.

FIELD MARSHAL VISCOUNT ALEXANDER, Governor-General of Canada, is shown with HON. L. B. PEARSON, Secretary of State and External Affairs, after receiving honorary degrees of doctor of civil law in a ceremony at Oxford University. In presenting Mr. Pearson for his degree, the Public Orator referred to the Canadian minister's career at Oxford and to his prowess as a hockey player there.

THE FIRST HALF OF A 5,000-MILE JOURNEY from Southwestern United States to Canada and return ended in Montreal recently with the arrival of Mrs. Robert B. Thompson, of Arlington, Texas, who made the trip alone on a motor scooter. The Canadian-born, 45-year-old mother of three said she was "dreadfully tired" of the trip, which she made in less than three weeks after averaging better than 225 miles a day through the blizzards, heat, cold, rain, ice, snow and thunderstorms in Ohio and Michigan.

Mountain View Community Bids Farewell To Teacher

Residents of the Gore school district and Mountain View community gathered at the Mountain View Hall on Thursday evening, August 2, to bid farewell to Mrs. Bert Bookert who has been teacher of the Gore School for the past eight years. The large crowd assembled was a tribute to the respect in which Mrs. Bookert was held by the community. During Mrs. Bookert's term of office five pupils won many honors which included several provincial and dominion prizes in essays on Tuberculosis and W.C.T.U. work. One year they won the I.O.D.E. prize for the best newspaper published in a rural school, and one year Joyce Archer, a grade nine student won the highest standing for grade nine in the Province.

A program of music and song provided the entertainment for the guests. Mr. Max Archer was chairman and in his opening remarks he said two important events took place in 1903—one was that he was born and the other was the Gore school was built. Mr. Archer's family have all graduated from that school. One child of the twenty-two students who graduated from the school while Mrs. Bookert was teaching, Jean Fay presented her with a tri-light reading lamp. On behalf of the community Mr. E. Cullen presented her with a purse of money. Mrs. W.E. Stiles spoke on behalf of the parents. Mrs. Atkinson and Fay, Bernie and Maxine Fulkert; guitar duets, Messrs. Haman; vocal duet, June Sherick and Helen Archer accompanied by Mrs. Archer; vocal duet by Virginia and Loretta Haman.

Mrs. Bookert will be teaching primary grades in the Didsbury school this fall.

Moisture Conditions In Alberta Above Normal

The Searle Precipitation Report of August 1st states that rains which occurred this last week on the average over the three prairie provinces were sufficient to maintain an overall total moisture condition taking into account reserve, and current seasons moisture, of 93 per cent of normal, compared with 90 per cent last week and 81 per cent a year ago.

The total moisture condition for Alberta now stands at 104 per cent of normal, Saskatchewan, 88 per cent of normal, and Manitoba 88 per cent of normal.

The rains which have occurred in Alberta from April 1st to July 3rd have amounted to 124 per cent of normal. Saskatchewan's seasonal rainfall to date is now 80 per cent of normal, and Manitoba has received since April 1st rains amounting to 63 per cent of normal.

With the lack of sufficient seasonal rains in Manitoba and parts of Saskatchewan it is fortunate indeed that the season started with excellent reserves of moisture particularly on summer fallow.

SHELL OIL BUYS DOMINION PETROLEUM LEASE NEAR TOWN

The Department of Resources and Development for the Dominion of Canada has announced the purchase of petroleum and natural gas leases in Alberta. Included in the land offered was the NW 1, 35-37-20 W 4, seven miles northeast of Didsbury. Purchased by Shell Oil Company for \$814.00.

Eight other parcels were sold by the Department, including three parcels of land in Red Deer and one southwest of Belburne.

A former oil timer of the Melvin district, Mr. Roy Warren, of Calgary, called in a few homes in this neighborhood with his brother Glen of Olds last Friday.

Sunday visiting at the home of Mrs. M. and Mrs. J. E. Bolton and family.

Mr. and Mrs. C. Laughton and two children of Calgary visited last Monday and Tuesday at the home of Mr. and Mrs. W. Wigley.

Sharon Phillips had the misfortune to break one of her fingers on her left hand while riding a horse on Monday.

Mr. and Mrs. W. Wigley, Mr. Dick Phillips and Mrs. F. J. Jackson and Phyllis motored to Sylvan Lake on Sunday and visited at the home of Mr. and Mrs. Herman where Phyllis remained to visit for a week.

Mrs. Reginald Necombe and daughter Carol and Shariene of Victoria are spending several weeks visiting her parents, Mr. and Mrs. George Dippel and Harold, and with other relatives in the district.

Mr. Alex McNair and Miss Marjorie Asseleek of Edmonton were Sunday and Monday visitors with Mr. and Mrs. T. McNair Sunday afternoon Mr. and Mrs. T. McNair accompanied them to Sylvan Lake.

Mr. and Mrs. Tom McNair, Mr. and Mrs. M. McNair, Miss Marjorie Asseleek were Sunday evening visitors with Mr. and Mrs. J.W. Rennie and family.

Bailey Interests Estimate Cost Of Natural Gas At 42-45c

LOSES 52 CHICKENS

Chickens are worth money these days and the Dick is beginning to realize it. For on Sunday he had 52 spring chickens killed on his place on the edge of town. It is believed that a sickness was responsible for the killings.

Edmonton Man Dies In Auto Accident

When the car driven by J. E. Cullen of Edmonton, with Mr. and Mrs. E. Williams of Lone Rock, Saskatchewan as passengers, was moving out from the service station at the Didsbury junction on Friday night, another car driven by Howard Raven of Edmonton crashed into the side of the moving vehicle, putting both cars into the ditch and causing the death of Mr. Raven in the Didsbury hospital early Saturday morning.

The collision occurred a few hundred feet south of the junction where the Williams car was forced into the ditch and turned over before taking the service station attendants removed the three occupants immediately.

The Raven car also went into the ditch behind the other vehicle with the front end badly damaged. Mr. Raven was removed, along with a passenger, Mr. Arthur Henderson, another Edmontonian, and the injured were taken to the Didsbury hospital where they were attended by Dr. McKenzie. Mr. Raven, age 34, died in hospital early Saturday morning.

Neither Mr. Williams nor Mr. Cullen were seriously injured, and Mrs. Williams and Mr. Henderson were reported Monday to be making satisfactory progress in hospital.

Interesting Items From South West Didsbury

Mr. Alex McNair spent Friday with his parents, Mr. and Mrs. Tom McNair.

Mr. and Mrs. J. L. Tuggle and Mr. and Mrs. J. B. Hipkin were Wednesday evening guests of Mr. and Mrs. E. Duggan and family.

Mr. and Mrs. Ed Weber and Mrs. Ames Weber plan to leave this week for a visit with Mr. Ed Weber and his mother and friends in Victoria.

Mr. and Mrs. Carl Meyer and family spent Sunday at Pine Lake and also visited in Lacombe.

Mr. and Mrs. M. Dippel and Carol were Sunday evening visitors with Mr. and Mrs. L. L. Shantz.

Mr. Lynn Hunsperger and Miss Grace Hunsperger motored to Calgary Sunday and Mrs. Ellen Cressman was a patient in hospital, accompanied them home.

Mr. and Mrs. Alfred Cook and family spent Tuesday visiting with Mr. and Mrs. Lynn Hunsperger and family.

Miss Ruth Shields of Calgary spent several days visiting with Mr. and Mrs. Lynn Hunsperger and Miss Grace Hunsperger.

Miss Ruby Dagelotte is spending a few days visiting with her cousin, Miss Kathleen Holman.

Mr. and Mrs. Cecil Weber and Douglas were Sunday dinner guests of Mr. and Mrs. Richard Sayer of Calgary.

Mr. Donald Weber attended the Bull Lake Camp on Sunday.

Mr. and Mrs. Bill Bast and family of Didsbury were Sunday dinner guests of Mr. and Mrs. Ernest Good.

Mr. and Mrs. J. B. Hipkin accompanied Mr. and Mrs. Roy Morgan to Ponoka Sunday to attend a wedding.

Mr. and Mrs. Fred Befus and family, Mr. and Mrs. Herman Dagelotte and family spent Sunday at Sylvan Lake.

Mr. and Mrs. Charles Hildebrandt and Shariene of Calgary were Sunday and Monday guests of Mr. and Mrs. E. A. Bartz and Shariene remained for a visit.

Mr. and Mrs. Ralph Chalmers of Calgary were Sunday guests with Mrs. George Meyer and George.

Mr. A. G. Bailey, president of the A. G. Bailey Company, and his engineers who have completed a survey of the towns between Red Deer and Calgary for a natural gas distribution system, met with the committee of the towns interested, at Olds on Thursday evening, August 2, to present his proposition for a natural gas service.

Representatives from Penhold, Innistail, Bowden, Olds, Didsbury, Camrose, Crossfield and Aldred were present, including the Didsbury representatives on the gas committee, Mayor H. Lynch-Staunton and Councilors A. E. Reiber and C. G. Thring.

Mr. Bailey explained that due to length of pipe line required it would only be an economical proposition to connect the towns between Crossfield and Innistail with a gas system. The gas would be taken from the Olds Bailey No. 1 well east of Didsbury, which has more than sufficient gas from its one well to supply the towns mentioned.

Cost of gas to consumers under the Bailey proposition would be between 42c and 45c per 1000 cubic feet, and gas mains would be laid in the alleys of the various towns. Minimum cost per month would be \$2.50, and the Company would lay gas pipe up to a maximum of 40 feet on property served. The consumer would pay the cost of pipe laying over the 40 foot maximum.

If the Bailey interests were given the easements mentioned above, a franchise in the towns for a supply of natural gas, Mr. Bailey said that it would be at least 18 months before the system could be put into operation.

Mr. Bailey's proposition was the first to be presented to the gas committee representing the seven communities mentioned above.

Arrangements have been made by the committee to meet with representatives of the Canadian Western Natural Gas Co. Ltd., which will submit a proposition for the supply of natural gas to all towns between Calgary and Red Deer.

This meeting was held at Olds on Thursday evening, August 9.

Mr. Bailey's proposition was the first to be presented to the gas committee representing the seven communities mentioned above.

Arrangements have been made by the committee to meet with representatives of the Canadian Western Natural Gas Co. Ltd., which will submit a proposition for the supply of natural gas to all towns between Calgary and Red Deer.

This meeting was held at Olds on Thursday evening, August 9.

Shower at Westcott For Mr. and Mrs. F. Luft

A delightful evening was spent recently at the Westcott school when neighbors and friends of Mr. and Mrs. Fred Luft (nee Margaret Stanton) were honored at a reception.

A few games were enjoyed Mr. and Mrs. Luft were called on to open their gifts and in turn they thanked all for their presents and invited the gathering to visit them.

Lunch was served by the ladies in charge, Mrs. H. Wilschusen, Mrs. W. Weidner, Mrs. J. Baudisch, Mrs. A. Kouschuk, Mrs. Otto Folkman and Mrs. Herb Goetjen, and thus the happy evening was brought to a close.

Mrs. Beatrice Luft and son Terry of Port Alberni, B.C. are visiting with Mrs. Luft's sister, Mrs. Herbert Goetjen.

Word has been received that Mr. and Mrs. Don Mortimer are the proud parents of another son, Brian Charles.

The weather man has been co-operating of late and having is producing very well crops in the district are almost all headed out and some fields are beginning to ripen, especially barley. Time is getting short and more hot weather is needed.

We were pleased to see Mr. and Mrs. E. Burton and those relatives of Mrs. Allen Kouschuk, all of Calgary, at the dance Friday night.

Mrs. Herbert Goetjen accompanied her brother, Mr. Herbert Pabst of Big Prairie, to Calgary on Saturday last.

Another barn dance was held in the Weidner barn last Friday evening with the Melody Five Orchestra in attendance and all report a good time. This dance was sponsored by the Westcott Community Club.

TEN GALLON HAT FOR MAYOR MACKAY

A white "ten gallon" hat was flown from London to Calgary because that city's Mayor Don Mackay said he wanted to wear a British hat in the City of the Stampede. The hat was made by a Stockport firm on behalf of Britain's entire hat industry.

CARD OF THANKS

I wish to take this opportunity to thank Dr. McKenzie, Dr. Burgess, the matron, nurses and staff of the Didsbury hospital for the kindness extended to me while I was in the hospital. Also the many friends who called on me, and for flowers, fruit, cards, etc. It was greatly appreciated.

MRS. GUS BITTNER

WEDDINGS

BURGESS-GROUT
The Calvary Baptist Church in Bellingham, Washington, was the scene of a lovely wedding on July 27th at 2:30 o'clock, when Dorothy Ann Groat and Gordon Clark Burgess were united in holy wedlock. The ceremony united the daughter of Rev. and Mrs. W. R. Groat of Peninsula, Washington, and the eldest son of Mr. and Mrs. H. R. Burgess of Didsbury, Alberta.

Huge baskets of pink and white gladioli formed the setting for the marriage.

After a prelude of wedding music Mrs. Glen Reese sang the "Lord's Prayer" and "Together With Jesus."

The ceremony was performed by the bride's father. Escorted by her brother Donell, the bride wore an ivory satin gown with lily-point sleeves and sweetheart neckline. Her finger-tip veil was held in place by a lacy halo trimmed with orange blossoms. She carried a bouquet of American Beauty roses.

The bride was attended by her two sisters, Rosemary and Sylvia, wearing gowns of mauve and pink taffeta. They carried bouquets of pink and white carnations.

Donald Burgess, brother of the groom, and Bill Owings, cousin of the bride, attended the groom. The bridal couple and wedding party received approximately eighty guests at a reception held in the church parlor. Ruth and Marie Burgess attended the guest book.

Mrs. Groat, mother of the bride, wore a dress of aqua blue with white accessories and a corsage of pink and white carnations.

Mrs. Burgess, mother of the groom, wore a navy blue dress with white accessories and a corsage of pink and white carnations. For their honeymoon the wedding couple chose twin grey suits. The bride's accessories were of navy blue.

Mr. and Mrs. Gordon Burgess will reside in Didsbury.

Canadian Mosquitoes
Not DDT Resistant

Mosquito-bitten Canadians have at last a word of encouragement from a scientist—mosquitoes in this country haven't built up resistance to DDT.

Dr. C.R. Twinn, of the Department of Agriculture's Household and Medical Entomology Unit, Division of Entomology, says Canadian mosquitoes, unlike some of their counterparts in the United States, have not built resistance to our widely used insecticides because of their limited number of generations.

Houseflies, on the other hand, are becoming slightly toughened to our insecticides. In general, resistance to an insecticide is built up by an insect during many generations. That's why our mosquitoes which have only about one generation a year aren't building up resistance rapidly like some of their southern cousins. Furthermore, our mosquitoes don't breed in concentrated areas so they aren't exposed to DDT in such great numbers as are, for example, those in parts of Florida. This means that fewer of them in this country are toughened survivors of DDT treatment.

Cultures of houseflies, Dr. Twinn reports, were obtained from various parts of Ontario and Quebec in 1949 and 1950 and reared through many generations. They revealed an average resistance to DDT of about 30 times that of standard laboratory culture.

That is "low to moderate" compared to that reported from various parts of the United States, especially in the warmer areas. Resistance of the pests in Canada, however, is expected to widen with the continued use of DDT.

Where DDT is not giving satisfactory control, Dr. Twinn continues, a spray containing 5 per cent lindane may be used. Applications have to be repeated at three-week intervals during the fly season.

For mosquito control, DDT continues to be the most satisfactory insecticide. Approximately 11,000 farms in Alberta are being supplied with central electric power. Projects will be completed by the end of the year to supply about 400 more farms with such power, bringing the total up to 15,000. As there are about 89,000 farms in the province, slightly over 16 per cent will be supplied with electricity by the end of 1951.

Most of the electricity in farming areas is being distributed by local co-ops which buy the power wholesale mainly from Calgary Power Co. and International Utilities.

Notes From the D.A.
(Hugh McPhail)PROMISING CHEMICAL CONTROL
FOR LOOSE SMUT OF BARLEY

In the May issue of "Scientific Agriculture" Dr. L. E. Tyner of the Dominion Laboratory of Plant Pathology, Edmonton, reports practical control of loose smut of barley by chemical means in the Montcalm variety. Heretofore the "hot water" treatment, requiring special equipment and careful application, was the only effective control for this disease.

Among several chemicals tested, Sporegon (tetrachloro-parabenzquinone) was 99.8 per cent effective in eliminating loose smut from the variety used. Without treatment this seed produced 24 per cent smutted plants. The infected seed was pre-soaked for 6 hours, drained, and immersed in an 0.2 per cent solution of Sporegon for 40 hours before sowing. This treatment resulted in a 20 per cent reduction in stand, a factor which can be compensated by increasing the rate of seeding.

While time-consuming, and applicable to small lots of seed only, the Sporegon treatment has merit in that it may be used on any farm. A wide margin of safety in use is indicated, the method is simple, and no temperature controls or complicated equipment are required. If it proves to be effective on a wide range of barley varieties and races of loose smut, the Sporegon treatment will be a major step forward in combatting this disease.

CHRISTIAN SCIENCE

The folly of taking a half-way position instead of a firm stand for the right will be exposed in Christian Science churches on Sunday. The theme of the Lesson-Sermon is "Spirit," and it is comprised in passages like these: "No man can serve two masters; for either he will hate the one, and love the other; or else he will hold to the one, and despise the other. Ye cannot serve God and mammon." (Matthew 6:24). "We cannot obey both physiology and Spirit, for one absolutely destroys the other, and one or the other must be supreme in the affections." (Science and Health with Key to the Scriptures, by Mary Baker Eddy, p. 182).

GREY WOODED SOILS

Experiments have shown that the efficient management of grey wooded soils, which comprise about 30 per cent of all arable lands in Alberta, calls for the same legumes in a regular rotation and the application of fertilizers. At the University of Alberta's demonstration plot at Breton, clovers when a fertilizer with a high sulphur content was applied, yielded an average of two and one-half tons per acre as compared with one-half ton without the use of fertilizer. Wheat after clover with fertilizer averaging 35 bushels per acre, while for fertilizerless crops averaged 15 bushels. Oats following the fertilized wheat went 60 bushels to the acre as compared to 30 bushels after the unfertilized wheat.

A wheat and summerfallow rotation has not proven too satisfactory on grey wooded soils, the yield averaged only 10 bushels and 17 when fertilizer was applied.

PENSION UPSET

The 5,000 farms and institutions in Canada with regular employee pension plans are going to have to do some new figuring before the year end. The reason, is the new universal old pension plan to start January 1, 1952. For the million or more Canadians existing pension coverage will mushroom overnight into substantially higher benefits. The big problem will be what to do with the increment, in relation to existing pension payments or accumulations.

CIVILIZATION

The storied childlike simplicity South Sea Islanders seems to be disappearing. A Tahitian woman, who danced to celebrate the arrival on her island of six Scandinavian raft voyagers, has sued in Hollywood for \$150,000 of the profits of the movie, "Kon-Tiki," made up of films taken by the voyagers in which her dance was included. The time seems to have passed when white men could buy a council house and five native wives with a tin harmonica and a sack of jaw-breakers.

Reminds us of a story told by a

friend of ours who was loafing outside an Albuquerque movie house one afternoon. A statuesque Navajo youth in full tribal regalia held out armful of blankets for the inspection of the tourists. To the attempts at conversation by the women shoppers he said nothing but "Ugh!", and he indicated the price by merely holding up one finger for each dollar.

Finally, there was a lull and the Indian observed our watchful friend. He smiled a little sheepishly.

"I feel pretty silly with this 'ugh' stuff", he said, "but boy, does it sell blankets!"—The Tulsa Tribune

Canada's Oldest and Most Famous Stud of
AMERICAN BRED SADDLE HORSESFULKERTH'S
DISPERSAL

TWO MILES EAST OF DIDSBURY, ALBERTA

Saturday, August 11 - 2 p.m.

Fair Acres Genius - His blood is in this sale

You are cordially invited to attend the sale by auction of Jos. Fulkert's renowned stud of American-bred saddle horses.

54 HEAD

Approximately, will be sold, including eight stallions, brood mares with colts at foot and rebred, yearlings, two-year-olds, three-year-olds, and over.

This offering includes some of the most fashionable breeding in America, by such sires as Kalarama Rex A. 17345 (Imp.) in 1940, sired by Kalarama Rex 10704, champion breeding stallion of America for seven years.

Edgemore's Star Genius 19493 (Imp.) in 1943, sired by Fair Acres Genius 16396, by King Genius 9500, by the immortal Bourbon King 1788, and Stonewall Barrymore 22796 (Imp.) in 1946, sired by Stonewall King 8720, champion breeding stallion of America for four years, and was second in 1950. Stonewall Barrymore's dam was sired by King Barrymore 8861, a consistent winner at the Kentucky State Fair in 1929, 1930 and 1931.

This breeding is the last word in saddle horse history.

ALL THROUGH YOUR LIFE

Did you ever stop to think that in all the world there is only one newspaper that is really concerned with YOU? And that is your hometown paper.

Big city dailies are only interested in YOU when you commit a crime, break your neck or do something equally spectacular or foolish. But your hometown paper is interested in YOU all through your life. Over the years it tells the story of YOU.

The story begins, as good stories should, at the beginning. YOU are born and in the "birth notices" there is an announcement that your father and mother have been blessed with YOU.

Then Dad and Mom go away on a trip and take YOU with them. So your name appears in the social and personal column. The years pass and YOU go to school. Every so often your name appears in school activities.

YOU are on the hockey team or the ball team as YOU grow older and your name is mentioned many times. YOU golf, curl, go to summer camp, take part in the music festival, act in a play—your name is in the paper.

Then comes the great moment of the early part of your life—high school graduation. You cut out the article for your grandchildren to see. Then perhaps college and home for holidays; your name appears often. YOU graduate and your hometown paper is just as proud of you as your parents are.

YOU come home and go to work in dad's business or start one of your own. YOU meet the one and only girl and your engagement is announced in the paper. YOU are married and there is a detailed account of your wedding.

As the years roll on your hometown paper tells the story of your social life, your community achievements, the birth of your children, the honors that come to YOU. Finally at the end of your long and happy life YOU appear in the "obituary column."

Thus YOU and your hometown paper are closely connected. Without YOU there would be no community newspaper. Without your community newspaper there would be no published story of YOU.

All through your life your paper records your doings—the happy occasions in your life, your sorrowful ones, your achievements. Your hometown paper is your paper.

FREIGHT RATE AWARD

In awarding the railways a 12 per cent increase in freight rates, the Board of Railway Commissioners has largely ignored a number of factors that should have been basic to any rate-making procedure. In neglecting to give these any proper amount of consideration, the board has, as in the past, brought in a verdict that is at once a reflection on its own capacity for its job and a serious gesture of discrimination against the prairie provinces.

This discrimination arises from the fact that the increase is permissive not mandatory and the railways will feel free to apply it fully only in sections of Canada where there is no effective water and truck competition. In the east and in British Columbia such a competition exists and as a result the railway rates there are kept to a competitive level. But in the prairie provinces no such protection exists and rates in the prairie provinces have consistently been higher than the eastern rates, although it has been clearly shown that railway operations in the west are far more profitable than they are in the east.

Because of competing forms of transportation in the east, the increases there exist largely on paper; the railways levy only such increases as will not disturb their competitive position. But the unprotected prairies feel the full force of the blow. The increases are applied to the maximum and the discrimination against the west is accentuated.—Winnipeg Free Press.

Canadians are beginning to become stiff-necked people from watching their cost-of-living soaring sky high.

JOB JUMPERS GET NOWHERE

A phenomenon of modern business is the current habit of "job-jumping", especially among young people who have been earning their daily bread only a short time. Office managers and personnel directors have been reluctantly resigning to a steady turnover of their junior personnel. There is a constant procession of new typists, new office boys, new junior clerks through the offices of corporations large and small.

What is it that moves a youthful employee to quit three weeks after starting a job? The reasons are not always financial. Not all office workers quit to go to a position that offers more money. Sometimes it is shorter hours, sometimes to enjoy coffee-time twice a day, often it is for such a trivial thing as to be in the same office as a boy friend or a girl friend. Whatever the excuse, the frequent resignations cause business houses a certain amount of disruption. Although no one is indispensable, the abrupt departure of a filing clerk who has just become vital throws an unfortunate burden upon the remainder of the staff until a suitable replacement can be found.

Young men and women appear unconvinced of the value of the old-fashioned virtues of stability. They

have yet to learn that it is to their advantage to acquire experience and seniority with an employer, that it is foolish to leave without just cause. There are circumstances, of course, where a change is advisable. But, on the whole, a newcomer to business life can gain much by becoming a specialist, by sticking to one job until he or she is expert at it. Not until the wisdom and experience that come only with time have been acquired, should the novice business man or woman look to broader fields.

The recent death of Fredrick S. Corrigan, Chairman of the Board of General Steel Wares Limited, is an excellent example of the virtues of stability. At the age of 19, Mr.

Corrigan became an employee of the Kemp sheet metal manufacturing firm in Toronto. He rose to the position of general manager. When the Kemp organization became a part of General Steel Wares, he remained as general manager of the company. At the time of his death, he had been 54 years with General Steel Wares and predecessor companies — he had climbed from a clerical job to secretary, general manager, president, and chairman of the board of the largest industry of its kind in Canada.

Not every young man has the energy and the brains that characterized Fredrick Corrigan; not every young man can hope to go to the top of his chosen field. But, unless

he (or she) is completely without talent or ambition, he can gain advancement and the prestige and compensation that accompany seniority if he sticks to the job. One job, that is, until he knows it. Change for the mere sake of changing is a bad habit that might well be broken to the advantage of employee and employer alike.

—Exchange

Varieties of wheat and barley that will be resistant to grasshoppers are close to becoming a reality, according to Dr. J.B. Harrington, head of the field husbandry department of the University of Saskatchewan.

Coyote Control In Alberta Successful

For some weeks now, coyote getters (special guns that fire shells loaded with cyanide) have been used in Alberta. Under the Provincial coyote control policy, coyote getters are supplied by the Alberta Department of Agriculture to authorities of special areas, improvement districts, and municipalities only. Farmers desiring getters must make application to their local government. Any municipal district may come under the policy by applying to the Alberta Department of Agriculture. Upon acceptance of applications, Department officials are prepared to conduct schools to instruct pest control and area officers in the proper use and safe handling of these coyote control poisons.

W. Lobay, Supervisor of Crop Protection, Alberta Department of Agriculture, reports that because of the present abundant supply of natural food for coyotes not many getters have been set, but good results are indicated from districts where these guns have been set and given regular attention. Pest control officers are planning to set out more and more getters with the approach of fall and winter.

It should be remembered that the use of coyote getters is only one means of controlling coyotes. Use of such methods as shooting, trapping snaring, and digging up the dens should not be neglected. The only way to deal successfully with the coyote is to outsmart him, says Mr. Lobay. Where coyote getters are used they should be set in areas where the coyotes are frequently seen. No human scent should be left on the getter and the scent used to attract the coyotes should be properly applied to the bait.

Divide Your Dollars With Your Neighbor

Everybody has a certain amount of civic pride—that sort of pride which helps make a village a town, and a town a metropolitan city.

The growth of any community is dependent upon the support given its citizens. If you fail in your co-operation, your town either stands still or goes back.

If you uphold your town by sustaining it wholeheartedly you help yourself and the community. Buy at home! Be neighborly with your dollar. Divide your dollars among your merchants and others who have the interests of Didsbury at heart. Help them and they will help you to greater values — for increased volume means decreased costs.

DIDSBURY needs your support and you need the support of the town. Let's get together and share our dollars for a mutual prosperity.

GOVERNMENT OF CANADA

If you are **70** this year
apply **NOW** for your
OLD AGE PENSION

All men and women who will be 70 or over on January 1, 1952, and who are not at present receiving old age pensions, should apply now for pensions payable by the Government of Canada under the Old Age Security Act, 1951.

If you are already receiving an old age pension, do not apply.

Your name and address will be taken from present old age pension lists, and you will receive your pension at the end of January 1952, without further action on your part.

If you are not receiving an old age pension, you should apply now. Do not delay.

How to apply. An application form is waiting for you at your nearest post office. If you can't come yourself, send someone for it. Fill it in at home and mail it as soon as possible.

To avoid delay in receiving your pension, apply now!

Issued by the authority of Hon. Paul Martin,
Minister of National Health and Welfare,
OTTAWA, CANADA

TOAD FLAX

Other English names are Butter and Eggs, Wild Snapdragon and Flaxweed. To those who are not familiar with this weed, following is a description:

A persistent, deep rooted perennial. Stem erect, slender and wiry. Hairless, slightly waxy. Leaves are stalkless, extremely numerous, fairly long and slender. Flowers are nearly an inch long, showy pale yellow with orange tips, borne in erect dense racemes. The flowers will open by applying gentle pressure to the sides. The seed is about 1/12 of an inch in diameter, black or dark brown, flat, round or oval. Seeds ripe by August.

Toad flax is very vigorous and persistent. It can establish itself in native or tame sod and will crowd out grasses. Small patches should be eradicated immediately.

Cultural Practices: — This weed can be reduced considerably by a thorough summerfallowing. Eradication may require summerfallowing for two successive years. Cultivation should start the fall preceding summerfallow year. Deep tilling or plowing just prior to freeze-up will weaken the stand. The next year cultivate every 8 to 10 days starting about June 1st. Do not use machinery that will drag and scatter roots.

Chemical Control: Small patches of Toad Flax can be eradicated with Sodium Chlorate. This chemical should be applied to the infested area.

BEAVER — ALBERTA'S NEW PROFITABLE CROP

Farmers in Alberta stand to lose as much as \$184,000 this year, through improper prepared beaver pelts.

The trapping of beaver by farmers has been steadily gaining popularity in the Province, and many areas of water on farms are being utilized. Beaver do not have to be fed or sheltered, yet can produce a profitable annual fur crop. But unless pelts are properly skinned, fleshed, stretched and dried, farmers may lose up to 60 per cent of the value when offering them for sale.

Grade One blanket pelt can bring as much as \$35 if properly pelted, but may sell as low as \$8 or \$10 if improperly handled.

The 1950 annual report by the Department of Lands and Forests shows that 472 permits were issued to farmers, and that 2,073 beaver were taken. This year 948 permits were issued for a possible catch of 18,450 beaver. If this year's catch is pelted as improperly as those in 1950, farmers may lose about \$10 a pelt, or more than \$184,000 in this season alone.

For that reason, more information about the beaver and proper skinning methods should be studied by every farmer-trapper.

There is only a limited time each year when beaver can be steel trapped or shot in order to obtain prime pelts. The usual period is from April 1st until May 15th.

Live trapping for transferring beaver is sometimes carried on in spring, before the cubs arrive, but

ed area and about six feet beyond the edges of the patch at the rate of 4 to 5 pounds per 100 square feet. Retreatment may be necessary to kill stragglers. Sodium Chlorate can be applied in dry form or in solution. Dry Chlorate can be applied with a small pail in which nail holes are punched to give salt shaker effect. For wet application mix 1½ pounds per gallon of water and apply with sprayer at the above rate.

This weed is assuming serious proportions in Mountain View Municipality and should be carefully watched and taken care of.

is done between August 1st and September 15th, when the cubs are old enough to travel, yet allowing time enough for beaver to get established in their new homes before winter arrives.

Live trapping was started about six years ago following the recovery of Alberta's beaver population. These animals had been so depleted in 1941 that strict regulations and a closed season had been in effect.

As the beaver increased, they moved into settled areas and soon were numerous in the Vermilion River, Ribstone River, tributaries of the Battle River, Castor Creek, in the Cypress Hills area, on the Elbow River near Calgary, on the North Saskatchewan River near Edmonton, and even in the so-called drought areas east of Hanna.

From time to time, damage caused by flooding of hay meadows, crops, roads, and bridges, was reported, the live trapping program was thought to be a solution. Beaver were trapped in areas where they were overpopulated or undesirable, and moved to trapping areas or set free in large rivers.

But because this program could only be utilized for six weeks in the fall, it was found that live trapping couldn't keep up with the steady beaver increase. It was then the program to allow farmers to trap beaver on their own land was introduced.

This program, used for the second time this spring, allows the farmer to take a crop of beaver annually, just as he would with other farm animals and crops.

PERMANENT WOOD SUPPLY

In Bruce County, Ontario, a couple of furniture makers have solved their raw material supply. These men have replanted mixed hard and soft woods regularly for many years and are now ready to start harvesting steadily just like short term farm crops.

BREAD PRICE INCREASE

Most Alberta bakeries boosted the price of bread by one cent last week, the price of a 20-ounce loaf now being fifteen cents in most stores. Bakery spokesmen attributed this price boost to the increasing cost of labour and ingredients, particularly flour.

A short time ago the price of wheat used for domestic consumption was increased by 6¢ a bushel. Actually this small amount would

justify about 1 ¢ increase in the price of a loaf of bread.

BRITAIN'S RECORD IN KOREA

Britain has put nearly 24,000 men into Korean fighting. Of these, nearly 14,000 were troops, the rest navy men with some R.A.F. personnel. Up until July 7th Britain had suffered 2,180 casualties, or about nine per cent of her forces engaged.

WANT A CAR?

Motor cars are beginning to sell again, says the Financial Post, now that salesmen are putting their backs into it and paying the costs. Customers are getting much better deals all round. On trade-ins, new car dealers are finally foregoing the double profit—one on the new car and one on the trade-in. That means from 25 to 35 per cent better values offered for the car the customers turn in.

Moderation is a Necessary Ingredient of Happiness

The House of Seagram

MEN WHO THINK OF TOMORROW PRACTICE MODERATION TODAY

**At Home and Overseas
SERVE CANADA**

in the **"Front Lines of Freedom..."**

with the **INFANTRY**
(QUEEN OF BATTLES)

Modern inventions have not taken away from the Infantry its all-important part in victory. Again and again, in the battles of 1939-45 and in Korea, Infantry has proved itself — "Queen of Battles".

The job of the infantryman has become tougher, more complex. He must be able to handle more weapons and to meet a greater variety of situations in defence and attack.

MORE MEN ARE NEEDED IMMEDIATELY!

Enrolment Standards:

To enlist you must:

1. Volunteer to serve anywhere.
2. Be 17 to 40 (Tradesmen to 45).
3. Meet Army requirements.
4. Married men will be accepted.

Terms of Engagement:

You will be enrolled in the Canadian Army Active Force for a period of three years.

All men are eligible for Overseas Service. If the military situation permits, married men after one year's service Overseas and single men after two years' service Overseas may be returned to Canada at which time they may request discharge even if they have not completed full three years' service.

Conditions of Service:

Current rates of pay and allowances. Serve for 3 years or make it a career.

Veterans' Benefits:

Reinstatement in civil employment. Unemployment Insurance and other appropriate benefits under Veterans' Charter as extended by Parliament.

Other Ranks —

Retention of present Reserve Force rank or the rank held in Second World War, subject to proving qualifications in service within a 90-day period.

Officers —

Short Service Commissions will be granted to officers who do not wish to enroll in the Active Force on a career basis. Further information should be obtained from your own unit or the nearest Army Personnel Depot.

Apply to the nearest Recruiting Depot:

No. 10 Personnel Depot, Currie Barracks, Calgary, Alta.

Army Recruiting Centre, Headquarters, Western Command, Kingsway Avenue, Edmonton, Alta.

116 Manning Depot, Prince of Wales Armouries, Edmonton, Alta.

**Join the CANADIAN ARMY
ACTIVE FORCE NOW!**

Houseflies Can Be Controlled

The people of Alberta can do a great deal to control houseflies reports the Alberta Department of Public Health. The department points out that houseflies are not only a nuisance but also may be instrumental in spreading such diseases as typhoid fever, dysentery and possibly polio.

The most effective way to keep the housefly under control is to eliminate their breeding places. Garbage, a favorite breeding place for flies, should be stored in dry, clean metal cans with tight lids.

Community garbage should be disposed of by means sanitary landfill operations or incinerators.

Compost heaps, manure piles and piles of decaying vegetation should be removed. Barns, animal quarters and outdoor privies should be kept clean and dry since dampness and filth encourage flies.

Insecticides, such as chlordane or DDT, should be sprayed on garbage cans, barns, chicken houses, dog houses and privies at least once a week. Houses should be protected with adequate screens which can be sprayed with insecticides. No foods should be left uncovered.

The importance of killing flies can be understood when their breeding potential is considered. An unmolested and well-fed housefly lives 30-60 days and a female lays 500-2,000 eggs during her life span, creating an enormous breeding potential.

USE THE CLASSIFIEDS

REGULATIONS TO BE ENFORCED ON ALL HIGHWAY SIGNBOARDS

The town and rural planning branch of the Department of Municipal Affairs on August 1 started inspecting all highways in the Province to see that regulations concerning the erection of buildings and signboards are being complied with.

New regulations for the erection of signs and buildings along main and secondary highways were issued May 14th, and require that owners of signs and signboards comply with the new regulations immediately.

The erection or display of signs bearing notices or advertising material "within visible distance" of highways in Alberta is prohibited by this order is relaxed to allow for signs providing information or giving directions, retail business signs and national advertising signs.

Directional or information signs are allowed providing the applicant provides the sign necessary for the guidance and information of the public. These signs must carry no advertising and cannot be more than 12 feet high or six square feet in area. Annual license fee for each directional sign is \$2 and that for each informational sign \$3.

Retail business signs informing the public of the type of goods sold or services available may be put up on the site. National advertising signs promoting the sale of various brands of goods can only be placed on buildings or premises where the goods advertised are on sale. Applications must be made to erect national advertising signs. The license fee is \$50 for each product advertised; this fee will cover all signs advertising a single product.

Government regulations provide that all signs shall be kept painted and in proper repair. Signs in connection with churches, schools, pub-

lic parks, cemeteries, experimental farms or other establishments operated at public expense or for religious and charitable purposes may be erected on sites without permission of the branch and without charge.

With regard to buildings, the regulations made by the Provincial Planning Advisory Board, senior planning body in the Province, state that no building be erected within 300 feet of a highway with no closer than 66 feet from the property line of the highway; no closer than 300 feet from the beginning of a curve or from an intersection; and no closer than 500 feet from a railway crossing. Special provisions are necessary in areas where dangerous intersections and railway crossings are situated.

Outdoor theatres, cemeteries, cat-baying and feeding yards, inneries, slaughter houses, private storage yards, second hand car lots, machinery yards and public dumps must be approved by the Board if they are to be located within 2,000 feet of highways.

Applications for the erection of buildings must be accompanied by plans and elevation sketches and a site plan, on the scale of at least 50 feet to one inch. The application must agree to build drive-ways, culverts and other approaches to his property at his own expense and maintain them in condition satisfactory to the District Engineer of the Department of Highways.

"MUSICAL" TYPEWRITER

Miss Lily Percy, 31, of London, England, has succeeded the world of music by inventing and patenting the first typewriter that can type music in all complexities of six octaves. Said an official of Britain's Musicians' Union: "It may revolutionize the music-writing world."

Bowden Hotel Is Attractive Home

The New Bowden Hotel owned by Mr. Sam Krueger of Didsbury with Mr. Jack Garner as manager has recently been renovated and is one of the best small hotels on the Calgary-Edmonton line.

The hotel contains twelve guest rooms all bright and attractive with hot and cold water in each room. Some of the rooms have aqua blue walls with white ceilings and woodwork also white. All floors have a blonde finish, the beds are new-date and comfortable with Chenille bed spreads and nylon curtains at the windows with attractive rugs on the floor.

As you pass through the main entrance into the rotunda its brightness seems to embrace you.

The old dark floor covering has been replaced with bright new linoleum; the registration desk is blonde and the interior of the telephone booth a deep cream, a far cry from its former dingy interior. Here too, the aqua blue and cream yellow is used on the walls and the stairway.

The men's beverage room is bright and attractive with the same color scheme being used as is also the case in the ladies' lounge. The chairs here are upholstered in two-tone leather and the tables are to be adorned with non staining finished tops.

Mr. and Mrs. Garner are genial hosts and the traveller or home person will always find a welcome here and it is a nice place to meet your friends.

Chevrolet offers you the thrill of no-shift driving with

POWERGlide*

When you get behind the wheel of a PowerGlide Chevrolet, you can look forward to the most pleasant and relaxed driving you have ever experienced. You are saying goodbye to manual gear shifting to pushing a clutch pedal. PowerGlide thinks and acts for you... automatically!

Above all else, you will discover that PowerGlide driving is easy. There are no tricks to learn.

no special skills to acquire. It's as natural as walking! And your PowerGlide-equipped Chevrolet has more than an automatic transmission alone! Here is a complete power team, with extra powerful 105-h.p. Valve-in-Head engine and EconoMiser rear axle coupled with General Motors' wonderful PowerGlide automatic transmission. You set the control in Drive position and off you go... Since

PowerGlide is a torque converter drive, you get continuous application of power through every speed — amazing smoothness! That's because oil does it all!

And PowerGlide has been time-proved over a billion miles by many thousands of owners!

It's a new experience in driving. Try it yourself. Your Chevrolet dealer will gladly arrange a demonstration.

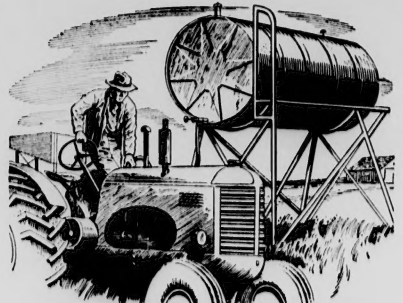

*Combination of PowerGlide Automatic Transmission and 105-h.p. Valve-in-Head engine optional on the Low model as extra cost.
(Combination of standard equipment and tests illustrated is dependent on availability of material.)

More Canadians buy Chevrolets than any other car... Canada's Largest and Finest low-priced car!

**A Farm Storage Tank
Makes Dollars and Sense**

Like many other sound investments, a farm storage tank more than pays for itself in dollars. Here is why—it makes sense!

1. **Helps Prevent 75% of Fuel Troubles**—Proper storage and handling is most important. For cleaner fuel, raise the nozzle end of the storage tank to allow any sediment to accumulate at the lower end where it can be removed.
2. **Prevents Waste**—Fuel is easily spilled or left in the bottom of a barrel whether you use a pump or a pump. With a storage tank gravity hose there is little or no waste.
3. **Lessens Fire Hazards**—Gasoline in a farm building creates a serious fire hazard. A storage tank located some distance from farm buildings complies with fire insurance regulations.
4. **Convenient and Time Saving**—Fill your engine fuel tank with a gravity hose. In busy seasons your fuel is there when you need it. There is little deterioration in quality during the winter or between busy seasons if your tank is full.

MOUNTAIN VIEW

Congratulations to the eight parents in the district with new babies. Mr. and Mrs. Stewart Tighe on August 3, a son, William Stewart; on August 3 to Mr. and Mrs. Gordon Elliott, a son, Brian Gordon; to Mr. and Mrs. Ed McNeil on August 3, a son, and to Mr. and Mrs. McBean (near Hiway Service Station) twins, Diane Rose and David Harold.

Mrs. Arthur Gebers, Myron and Gordon, visited Friday with Albin Hansen at Airdrie.

Mr. and Mrs. Charles Kohut, Louis and Frankie, returned Sunday from a motor trip to the States and report a very enjoyable time while away.

Mr. and Mrs. Thomas Towers of Edmonton spent Thursday at the B.A. Atkinson home.

Sunday dinner guests at the B.A. Atkinson home were Mr. and Mrs. Ray Taught and Dean, Miss Jessie Nisbet, Mrs. R. Nisbet, Mr. Walter Nisbet and Mrs. Hugh Nisbet and Herbie.

Mr. and Mrs. Stearns of Acme were supper guests Saturday evening with Mr. and Mrs. Harold Shultz, and Grace Shultz returned with them.

Grant Shultz spent the past week with his grandparents, Mr. and Mrs. W. Shultz.

Mr. and Mrs. George Carter and girls and Mrs. Pratt of Calgary visited in the neighborhood with relatives this past weekend.

Mr. and Mrs. Wm. Shultz and Kenneth and Mr. and Mrs. Harold Shultz and family spent Sunday at Pine Lake.

Elaine Pratt is visiting in Calgary with Mr. and Mrs. Eugene Durrer.

Mrs. Roy Gale entertained the Knitting club ladies last Thursday afternoon at her home.

FALLEN TIMBER NEWS

The regular meeting of the Fallen Timber Busy Bees was held at the home of Mrs. Cooper on August 1. Thirteen members and four visitors were present and roll call was answered by a short description of someone in the district. Then the other members were asked to name the person described.

Mrs. Stan Morrison donated a folding cot frame to the Society to be placed in the school. Mrs. McGaffin and Mrs. C. Moore donated plastic covers for the pillow and cot and Mrs. Monecy donated a pillow. The ladies decided to buy canvas to cover the frame, and two army blankets to be used on it.

The ladies donated \$17.25 to the Crippled Children's fund.

It was decided to purchase articles for embroidery work for next year's bazaar.

Mrs. Stair thanked the Club for presents to her new baby and herself.

After the business meeting a delicious lunch was served by the convenors, Mrs. Bone and Mrs. Admussen.

Monte Moore of Calgary is visiting his aunt, Mrs. J. Howton.

Mr. and Mrs. Howton and family and Mr. Harry Howton attended the wedding of Mr. Bert Howton in Calgary on Saturday, July 28.

Regular church and Sunday school services were conducted at the school on Sunday by Rev. Mr. and Mrs. C. R. Moore. Attendance was up as most of the vacationers have returned. Mr. and Mrs. Robert Moore sang a duet and Mrs. Bob McGaffin and Mr. Pat McGaffin rendered solos. The orchestra also played a selection.

Miss Doris Fulkert and Miss Jacqueline McGaffin are visiting at the home of Mr. and Mrs. Alex Moore this week. Mr. Gordon McGaffin is also visiting with Mr. and Mrs. Moore.

The Burma Road has been gravelled at last and now it's possible to go to town without the risk of not being able to get home again if the weather should change.

Mrs. Wannamaker and Donna are visiting at Gull Lake, Sask. While there they plan to attend the wedding of Mrs. Wannamaker's niece, Miss Beatrice Johnson.

A violent twister hit the district last Tuesday in the vicinity of Bob McGaffin's place, then jumped to the south of the Staff place and then over to Jimmy Coates. It cut a swath about three rods wide and of varying length. Huge trees were uprooted or snapped off like match sticks and left in a tangled mass as if a giant bulldozer had passed that way.

Hail struck again in several areas in the district and many report one hundred percent hail damage.

Mrs. Ray Teynor is visiting her parents, Mr. and Mrs. Bruns of Calgary.

Mrs. G. Admussen and children are visiting Mr. and Mrs. Cooper this week.

Mrs. Mork Sweet is away on vacation for a few weeks.

Mr. and Mrs. Raymond McMillen have returned from their wedding trip and are living on their farm west of Elkton.

Mr. Rosted and Kenneth were Didsbury and Olds visitors over the weekend.

Mr. and Mrs. C. Moore and Mr. and Mrs. W. H. McGaffin were in

CREMONA NEWS

Miss Evelyn Hettinger and Ronald and Marvin Hettinger left last week for a trip to Portland, Oregon, where they will visit relatives for two weeks.

Mr. and Mrs. Jack McQuarrie are holidaying on a motor trip through Eastern Canada. During their absence the McQuarrie family is visiting their grandparents in Calgary.

Mr. H. Waterstreet and Ralph left Monday August 6 for Lethbridge where they will visit with Waterstreet's daughter, Mrs. Gay Lalonde and Mr. Lalonde.

Mr. C. H. Waterstreet recently returned from a trip to Edmonton and High Prairie. While in High Prairie he visited with his sister, Mrs. Spillman, Grace and Kent.

Mr. and Mrs. Jack Newton of Taber are visiting with the latter's brother, Mr. Robert Spillman, and Mrs. Spillman, Grace and Kent.

While in the district Mr. and Mrs. Newton are renewing old acquaintances.

Miss and Mrs. T. G. Thompson visited with friends in Edmonton last weekend.

Misses Celia and Nancy Lee Thompson visited with Mr. and Mrs. Dave Carlson of Hiramant during their parents' absence.

Mr. John Stuart was an Edmonton visitor last weekend.

Miss Nola Waterstreet was a recent guest for several days at the home of Mr. and Mrs. Wayne Stranger of Elkton.

Miss Betty Johnston has accepted a position as nurses' aid in the Olds Hospital and left last week to assume her duties.

Mr. and Mrs. Pearce of Calgary have visited for the past month with their son, Mr. Hugh Pearce, and Mrs. Pearce and family.

Miss Leona Bouck, who is employed in Banff, spent the weekend with her parents, Mr. and Mrs. Lee Bouck.

LEAVING THE BIG CITIES

In the United States in recent years there has been a substantial movement of people from the big cities into the suburbs and nearby towns, according to the recent American census. Since the end of the last war, it is estimated, some five million persons have joined the trek from the countries' 165 metropolitan centres. It will be a good thing for Canada if the current census here reveals a similar trend.

With modern transportation it is no longer necessary nor desirable for people to live jam-packed into narrow streets alongside the factory or office that employs them. They are far healthier, and in these critical times, far safer, spread out over a wider area.

In this way they can get away from the smoke, the traffic and the high tension of the thickly built-up urban centres. They should also be able to find cheaper living and they won't, for one thing have to build bomb shelters.

The district Wednesday. Mrs. McGaffin and Mrs. Moore attended the meeting of the Busy Bees.

Mrs. W. Roberts and Mr. and Mrs. Monecy were Didsbury visitors Tuesday. Mr. Monecy went to Airdrie on his way home and encountered a hail storm at Crossfield, having the misfortune to get the windshield of his car broken by a hail stone.

Mrs. Bennie Teynor spent a few days at Okotoks visiting her parents, Mr. and Mrs. Austin.

Mr. W. Roberts and Mr. John Teynor spent the weekend west of Didsbury on a fishing trip.

Mr. and Mrs. Joe Teynor celebrated their wedding anniversary August 1st by having some thirty guests at their place for the evening. There were contests and a sing-song after which the hostess served a delightful lunch.

A delightful picnic was held at the first ford on the Fallen Timber on Saturday, August 4, by the Four-square Sunday School of Fallen Timber. There was a large attendance and everyone joined in the sports which were ably directed by the young men of the church, Dave, horses and baseball were the order of the day, and the evening was spent in the roasting of weiners and toasting marshmallows. After dark everyone gathered around the campfire to join in a lively sing-song. Mr. and Mrs. Bob McGaffin, Mr. Eddie Adams, Misses Adams, Mr. Marion Adams, Mr. J. H. Cooper and Mrs. Howton contributed the music.

Mr. and Mrs. J. W. Cheaving of Mound and Mr. and Mrs. H. Davis of Three Hills were weekend guests of Mr. and Mrs. A. Moore.

Mr. and Mrs. G. Bone had their two daughters from Hollywood visiting with them recently.

Mrs. Bob Moore, Judy and Brian spent a few days visiting with Mr. and Mrs. A. Moore.

Mrs. Bennie Teynor has her little sister, Theresa Austin, with her for a time.

Mr. and Mrs. J. A. Howton and Mr. H. Howton attended the wedding of Mr. Bert Howton to Mrs. Mary Cutforth of Calgary. During their absence the Howtons had a rooster feed on five hens and a rooster.

Mr. and Mrs. W. H. McGaffin spent an afternoon recently with Mr. and Mrs. J. H. Cooper.

For Better Harvesting
